

ECMA-39, Track Format Characteristics of Interchangeable Single Disk Cartridges (Top Loaded)

SCOPE

Standard ECMA-38 defines the mechanical, physical and magnetic characteristics for interchange of Single Disk Cartridges. This Standard ECMA-39, prepared by ECMA TC16, is directed to the Track Format Characteristics for data interchange on such disk cartridges.

It has been adopted by the General Assembly of ECMA on June 15, 1973.
