

ECMA-54, Data Interchange on 200 mm Flexible Disk Cartridges using Two-Frequency Recording at 13 262 ftprad on One Side

SCOPE

This Standard ECMA-54 specifies the characteristics of flexible disk cartridges to provide physical interchangeability between data processing systems. It also specifies a standard track format. Together with the labeling system specified in another ECMA standard currently under preparation, this track format provides for full data interchange between data processing systems.
