

ECMA-9, FORTRAN

1.2. Scope. This standard establishes:

- (1) The form of a program written in the FORTRAN language.
- (2) The form of writing input data to be processed by such a program operating on automatic data processing systems.
- (3) Rules for interpreting the meaning of such a program.
- (4) The form of the output data resulting from the use of such a program on automatic data processing systems provided that the rules of interpretation establish an interpretation.
