RE: FUJITSU STATEMENT OF SUPPORT FOR THE C$^{\#}$ / CLI PROJECT IN TC39

Dear Mr. Secretary General,

We refer to ECMA/TC39/2000-002 and 2000-004 and state our support for TC39 undertaking new work in these areas to develop ECMA standards for C$^{\#}$ and CLI. We further state that, if this work is approved by TC39, we intend to actively participate in the development of the CLI standard.

Additionally, we support the establishment of Task Groups as appropriate to undertake this work and, should TC39 establish a TG for CLI, we would commit Fujitsu resources as necessary to participate in such a TG.

Accordingly, please record Fujitsu as indicating its sponsorship of the C$^{\#}$ / CLI Project in TC39.

Sincerely,

Basim Kadhim
