DETAILS AND LOGISTICS:

Adobe is located at **275 Grove St, Newton, MA 02466**. (Newton is considered a hamlet of Auburndale, so automated mapping software may direct you to an Auburndale location. This is ok, and is only the 1st oddity you'll discover while navigating in Boston).

Newton is located about 25 minutes from Logan airport and is directly west from downtown Boston. For those of you familiar with the Boston area, the Adobe facility is located very close to the Mass Pike (I-90) and Route 128 interchange.

HOTELS:

There are a few hotel choices located within 10 minutes of the facility:

Marriott

> 70 Third Avenue · Waltham, Massachusetts 02451
> Phone: (781) 290-5600

If you're looking for extended stay accommodations, the closest location appears to be a Residence Inn located in Cambridge. This appears to be about 25 minutes from the facility:

DRIVING

Taxis are available between the airport, hotel, and Adobe facility. A detour was recently introduced when traveling from Logan airport to I-90W that might not be reflected in automated driving directions.   The detours are well marked and shouldn't present too much of a problem. Just keep following the detours to I-90 W (Mass Pike) towards Worcester.
