

ECMA-38, Mechanical, Physical and Magnetic Characteristics of Interchangeable Single Disk Cartridges (Top Loaded)

SCOPE

This Standard ECMA-38, prepared by ECMA TC16, is directed to the mechanical, physical and magnetic characteristics for interchange of Single Disk Cartridges. The track format characteristics for data interchange on such disk cartridges are listed in Standard ECMA-39. It has been adopted by the General Assembly of ECMA on June 15, 1973.
