

ECMA-70, Data Interchange on 130 mm Flexible Disk Cartridges using MFM Recording at 7 958 ftprad on 40 Tracks on Each Side

SCOPE

This Standard ECMA-70 specifies the characteristics of a 130 mm magnetic flexible disk cartridge to provide physical interchangeability between data processing systems. It also specifies a standard track format. Together with the labeling system specified in Standard ECMA-67, the track format in this Standard provides for full data interchange between data processing systems.
